snapshot 1.0.562.0
Installed snapshot with new db because of db changes.

12 @551

13 Scenario Outline: Sync after user list changed

14 Given a analyzer is connected

15 And the following users are present in the analyzer

	<i>user name</i>	<i>user ID</i>	<i>role</i>
16			
17	Nynaeve al'Meara	nynaeve	Administrator
18	Moiraine Sedai	moiraine	User
19	Siuan Sanche	siuan	User
20	Rand al'Thor	rand	Administrator

21 And the following users are present in the SSW:

	<i>user name</i>	<i>user ID</i>	<i>role</i>
22			
23	Nynaeve al'Meara	nynaeve	Administrator
24	Moiraine Sedai	moiraine	User
25	Siuan Sanche	siuan	User

26 When I change a user

27 Then the user '*<userID>*' and its new '*<properties>*' are

28 And the result of synchronizing the user is '*<result>*'

29 Examples:

	<i>description</i>	<i>userID</i>	<i>properties</i>
--	--------------------	---------------	-------------------
